REMARKS

The figures of births and deaths of India shown in this statement for week ending the 2nd March, 1957, relate to 176 towns with an estimated population of 24,631 thousands. Information about Andhra Pradesh, Madhya Pradesh, Pondicherry and West Bengal could not be included. The total number of towns is 318 and their population is 41,584 thousands. Thus 55% of the total number of towns representing 59% of the total population

is covered in this statement. The number of births and deaths recorded in these towns were 13,268 and 5,945 representing birth and death rates of 28.0 and 12.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States.
